Coleridge's works. - With I hope if  
you please safely, as it may  
be wanted. Paul Letter to Jackson  
Here enclosed.

Dedham July 7. 1846

My Dear Anne:

As a reward for you being  
a good girl & reading Mr Webb's  
letter unread (though I have no real  
objection to your reading any of his  
books if you wish them sent) I herewith  
send in his spirit four Miss South  
General for the same. The latter must  
be sent on to you by the package  
on Thursday without fail. As I believe  
you have not seen the Catat Cucubatar  
& that dear child I send them in to you  
receiving you to be careful of them.

Yours all I have a proposition to make

By you. I'm sure in the Colquhoun  
Expedition was so capital that I  
woud you & embark in another ad-  
-venture of the same kind. I have  
some thoughts of going overland  
& passing <sup>through</sup> the Nubia of  
the Nile to the sea. And I wish if you  
will come out & go with me. The  
little Akumba called Penn shall  
be ready to receive you & I will  
drive you over tomorrow morning  
at the next day land you at Akumba  
if you please. I don't know much  
about the topography of that country,  
but I think it cannot be much

out of my way to take W. in it. I may  
consider of this privately, & come out  
this aft<sup>m</sup> or ev<sup>g</sup>. Let me hear how  
things are at my water.

If you will not yet take care of  
me, I hardly think I shall so. Please  
your very love & "cold blooded" intrigue  
show of management "still here that I did  
not recollect this evening when I proposed  
the 11<sup>th</sup> meeting on Thursday. But it  
can be held without me. ~~That~~  
I should like to be at it. Perhaps  
Elizabeth's speech from Sydney letter  
might be read, privately, to some  
with advantage.

If you cannot go to N. ~~to~~ I shall  
double up at the 10<sup>th</sup> Meeting on Thursday.

I shall provide good weather, of course.  
I think you must allow that I did well  
by you on the 4<sup>th</sup>. I saw the Deal off  
with my own Spectacles eyes & after having  
swapped down the tubes with my own  
right rec<sup>d</sup> hands. Apropos but me of my  
crack towels is yours & Cuellar's Dawson  
in the swooning net from the Crown-  
st. I commend to its Rumpelstiltskin.  
Today I hope to wind up the whole  
business.

I am ever, with love & all,  
most truly yours,

Alfred, Swelling, Wood-dyed

Christyway.
